PROFESSIONAL SUMMARY

Senior Business Analyst and System Analyst with over 20 years of experience driving business intelligence, statistical data modeling, and process automation across cross-functional enterprise environments. Expert in SQL, Database Management Systems (DBMS), data mining, statistical analysis, and complex report automation. Proven track record of managing end-to-end project timelines, creating test strategies, building global financial models, and delivering actionable performance analytics to executive leadership.

SKILLS

- **Business Intelligence & Analytics:** SQL, Database Management Systems (DBMS), Data Mining, Data Modeling, Statistical Testing & Correlation Analysis, Data Cleansing, Segmentation Techniques.
- **System Analysis & Project Management:** Test Strategy & Test Case Execution, Cross-functional Project Leadership, Process Flow Optimization, System Enhancement, Transition Planning, BMC Remedy Reporting.
- **Tools & Software:** Advanced Microsoft Excel, Microsoft Access, Microsoft PowerPoint, Microsoft Word, Windows OS, BMC Remedy, Automated Reporting Tools.
- **Core Competencies:** Stakeholder Management, Executive Reporting, Technical Analysis, Operations Planning, Performance Management, Detail-Oriented Problem Solving.

WORK EXPERIENCE

Senior System Analyst / Business Analyst

Philadelphia, PA | March 2016 – Present

- Lead cross-functional project teams through complex system implementations, ensuring delivery on time, within budget, and aligned with enterprise specifications.
- Formulate comprehensive test strategies, document test plans/cases, and oversee user acceptance testing (UAT) to ensure high system quality and reliability.
- Provide regular status reporting, effort estimation, and risk mitigation strategies to senior leadership, coaching project team members on project management methodologies.
- Utilize BMC Remedy to run, build, and extract detailed operational and system analytics reports.

Financial Analyst / Business Analyst

Detroit, MI | January 2010 – January 2016

- Supported global operating plan cycles for multinational operations, partnering with financial controllers and operational leads to maintain process completion and schedule adherence.
- Developed and executed complex financial models, including Global Seating Capacity, Financial UCM, and HPP models, to support strategic decision-making.
- Tracked, analyzed, and troubleshooted process flow inefficiencies, recommending and implementing key system enhancements.
- Generated scheduled performance reports for Major Markets, Sales, HR, and Senior Executives using Microsoft Excel and SQL queries.

Data Analyst / Business Analyst

Boston, MA | February 2004 – December 2009

- Interpreted complex datasets using statistical techniques, hypothesis testing, and correlation analysis to optimize program outcomes.
- Designed, developed, and deployed data collection systems and statistical models that improved data quality and statistical efficiency.
- Identified and resolved data inconsistencies through data cleansing, segmentation, and advanced database querying in SQL.
- Presented analytical findings, data models, and database design improvements to non-technical stakeholders and leadership teams.

EDUCATION**Bachelor's Degree in Analytics**

Auburn University | Auburn, AL
