PROFESSIONAL SUMMARY

Detail-oriented Civil Engineer, Registered Professional Engineer (PE), and certified PMP with over 4 years of experience delivering multi-million dollar civil infrastructure, commercial, and water/sewer projects. Technical expert in AutoCAD and Civil 3D for site layout, grading, stormwater drainage, sanitary sewer systems, and roadway design. Adept at cross-disciplinary collaboration, client interfacing, and adhering to ASCE, AWWA, and International Code quality control standards. Seeking to drive site design efficiency and project success for Vestal Corporation.

SKILLS

- **Civil Site & Infrastructure Design:** Site Layout & Design, Grading & Earthwork, Stormwater Drainage Design, Flood Studies, Sanitary Sewer Systems, Erosion Control, Roadway & Pavement Design.
- **Engineering Software & Tools:** AutoCAD, Civil 3D, STAAD Pro, Structural Performance Design, Project Management Systems.
- **Codes, Standards & Quality Control:** ASCE Standards, AWWA Guidelines, International Building Codes (IBC), Local Municipal Codes, Company Quality Control Procedures.
- **Licensing & Certifications:** Professional Engineer (PE License - State of Utah), Project Management Professional (PMP / PMI).
- **Professional Competencies:** Cross-Disciplinary Collaboration, Client & Vendor Interfacing, Problem-Solving, Team Building, Time Management, Change Management.

WORK EXPERIENCE

Civil Engineer

Barthold Smith Engineering | July 2014 – August 2018

- Managed 8 complex multi-discipline civil site, commercial design, and water/sewer infrastructure projects with average budgets of \$3M, executing deliverables 10% under budget.
- Directed engineering site layouts, grading strategies, flood study reviews, and stormwater drainage management plans using AutoCAD and Civil 3D.
- Coordinated directly with external clients, utility vendors, and internal disciplines to ensure seamless project execution aligned with ASCE, AWWA, and corporate quality control standards.
- Identified 3 critical design flaws prior to construction to prevent project failures and promote a safe, efficient working environment.

Civil Engineer

Asher Wolff Group | January 2014 – June 2014

- Conducted 10 forensic site investigations into damaged commercial buildings and structural performance failures.
- Identified 8 major hidden design defects in failed constructions and collaborated with independent adjusters to fix reimbursements 15% above average.

Civil Engineering Consultant

Various Projects | September 2013 – January 2014

- Consulted on bridge and roadway geometry design for a volunteer infrastructure project connecting rural communities to basic municipal services.
- Headed local playground site layout and project management for a \$60,000 community project.

EDUCATION

Bachelor of Science in Civil Engineering

University of Idaho | Graduated 2013

- **Academic Honors:** Top of class in Structural Performance. Independent study project in AutoCAD featured in *The Constructor* blog.

LICENSES, CERTIFICATIONS & PUBLICATIONS

- **Professional Engineer (PE):** Licensed PE, NSPE (State of Utah).
- **Project Management Professional (PMP):** PMI Certified.
- **Publications:** ASCE Magazine Article on AutoCAD (2017); Business Insider cited PM Article (2015).
- **Conferences:** Panelist on Green Design at ASCE Week (2017); ASCE Forum (2016).
