

JESSICA CLAIRE

Seattle, WA | (555) 432-1000 | resumesample@example.com | [linkedin.com/in/jessicaclaire](https://www.linkedin.com/in/jessicaclaire)

PROFESSIONAL SUMMARY

Data Analyst and Business Intelligence professional with 7+ years of experience in commercial reporting, process automation, and database management. Proven expertise in intermediate-to-advanced SQL (Snowflake, BigQuery, MySQL), Python, and CRM administration (Zoho CRM). Skilled in automating workflows, cleaning and normalizing complex datasets, and delivering KPI dashboards for cross-functional commercial, operations, and finance teams.

SKILLS

- **Data Analytics & Visualization:** SQL (Snowflake, BigQuery, MySQL, SQL Server), Python, R Programming, Power BI, Qlik Sense, Advanced Excel & Google Sheets (Pivot Tables, Formulas, Data Validation).
- **CRM & Process Automation:** Zoho CRM Administration (Modules, Custom Fields, Workflows, Assignment Rules), Low-Code Automation, Process Optimization.
- **Database & Data Management:** Data Cleaning & Normalization (Geolocation, Contact Data), Data Quality Assurance (QA/QC/UAT), ETL Pipelines, Data Warehousing.
- **Business & Stakeholder Collaboration:** Cross-Functional Alignment (Commercial, Operations, Finance), Executive Presentations, KPI Development, Project Oversight.

WORK EXPERIENCE

Data Analyst & Business Intelligence Engineer

Konica Minolta | Seattle, WA | 12/2016 – Present

- Partner with commercial, operations, and executive teams to gather reporting requirements, translating them into actionable BI dashboards, KPIs, and data insights.
- Execute complex SQL queries and Python scripts to extract, clean, and validate data across MySQL databases and cloud environments.
- Present analytical findings and data-driven recommendations to commercial leadership, external partners, and cross-functional stakeholders.
- Automate data ingestion and ETL workflows in Linux environments to reduce manual processing time.

BMT Data Analyst & Operations Specialist

Bionano Genomics, Inc. | San Diego, CA | 05/2016 – 12/2016

- Managed commercial reporting and clinical trial data collection, automating manual workflows using R, SQL, and low-code scripts.
- Developed and administered CRM modules and operational tracking systems using Zoho CRM, Jira, and internal workflow tools.
- Conducted rigorous data cleansing and normalization on customer/partner databases to ensure high data quality and accuracy.
- Collaborated with lead oncologists and cross-functional teams to resolve data issues and support strategic decisions.

Data Project Analyst

Moffitt Cancer Center (M2Gen) | Tampa, FL | 06/2015 – 05/2016

- Executed QA/QC/UAT procedures and SQL test scripts to validate data movement across enterprise staging and production data warehouses.
- Identified ETL pipeline issues, created standardized documentation templates, and reduced clinical data QC time by 20 hours per release cycle (Spot Award Winner).
- Designed Qlik Sense training materials and video tutorials to help stakeholders interpret complex commercial data.

EDUCATION

Bachelor of Science (Honors) in Data Analytics & Biochemistry

University of Waterloo | Waterloo, ON, Canada | Graduated 06/2015

- **Coursework:** Statistics, Bioinformatics, Data Analysis, Organic Chemistry.
