

TYRELL HERMANN

Dallas, TX | +1 (555) 436-9537 | tyrell.hermann@email.com | [linkedin.com/in/tyrellhermann](https://www.linkedin.com/in/tyrellhermann)

PROFESSIONAL SUMMARY

Senior Software Engineer and Technical Architect with 15+ years of experience building, designing, and optimizing enterprise applications using Core Java (Java 11/17+), Spring Boot, and RESTful API architecture. Expertise in multi-threading, database management (Oracle, Sybase, PostgreSQL), search technologies, and automated unit testing. Proven track record of leading cross-functional engineering teams, conducting code reviews, mentoring junior developers, and collaborating across Agile delivery cycles. Skilled in using AI-assisted development tools to drive continuous system delivery.

TECHNICAL SKILLS

- **Programming Languages & Core:** Core Java (Java 11/17+), JVM Internals, Concurrency/Multithreading, Shell Scripting, Perl, Python.
- **Frameworks & API Design:** Spring Boot, Spring Framework, RESTful API Design & Security, Microservices Architecture, Design Patterns.
- **Databases & Search Technology:** Relational & Non-Relational Databases, Oracle, Sybase, PostgreSQL, MySQL, Elasticsearch, Indexing.
- **Software Development & Testing:** Unit Testing Frameworks (JUnit, Mockito), Code Review, Ant, Maven, Gradle, Debugging & Performance Tuning.
- **Methodologies & Leadership:** Agile/Scrum Master, Technical Architecture, System Integration, Requirements Analysis, Project Management, Team Mentorship.
- **AI Tools & Modern Tech:** AI-Assisted Development (GitHub Copilot, ChatGPT), Prompt Engineering, Middleware/Messaging Services.

WORK EXPERIENCE

Lead Software Engineer / Java Developer

Enterprise Solutions | Dallas, TX | November 2016 – Present

- Architect, design, and write high-quality Core Java (Java 11/17+) code and RESTful APIs to deliver scalable software modules for business clients.
- Participate in requirements analysis, system architecture, integration, and testing while supporting end users to resolve complex application issues.
- Lead peer code reviews to enforce software engineering standards, optimize query performance, and ensure memory efficiency.
- Collaborate across global, cross-functional engineering teams using Agile/Scrum methodologies and leverage AI-assisted tools to streamline workflows.

Senior Software Engineer / Lead Developer

Tech Solutions Inc. | Phoenix, AZ | December 2013 – October 2016

- Led technical design, system integration, and software development for core business applications from functional specifications.
- Developed robust relational database schemas and queries using Sybase and Oracle; executed comprehensive unit testing and mock frameworks.

- Directed junior engineers in coding, configuration, and testing, maintaining records to document program development and revisions.
- Monitored operating efficiency of existing systems and delivered proactive maintenance to maximize system availability.

Software Engineer / Solutions Architect

Systems Corp | Dallas, TX | December 2009 – August 2013

- Coached and mentored junior developers, delegating technical tasks and establishing coding guidelines for complex projects.
- Selected development tools, frameworks, and methodologies for project scope deliverables with executive stakeholders.
- Managed end-to-end coding, debugging, and implementation of complex multi-threaded Java applications.

EDUCATION

Bachelor of Science in Computer Science

Herguan University | 2003 – 2008
